International Shipping

Please see calculator for rates. International buyers from countries not serviced by the eBay Global Shipping Program will receive a discount off the calculated rate, in lieu of the free shipping being offered to U.S. customers.

If your country imposes any import duties, taxes or other related fees, they are the buyer's responsibility and not included in the item price or shipping charges. Please check with your country's Customs Office to determine what these additional costs may be, prior to bidding or buying.

NOTE: First Class International shipping, via eBay's Global Shipping Program, is available to the following countries. Rates to some, but not all, of these countries may be calculated below. Please contact me for First Class rates to any country on this list not appearing in the calculator.
